

FREQUENTLY ASKED QUESTIONS

Is there a house mixer?

*No. The band needs to organize their own **professional** mixer. If you are having trouble finding one, call the public bar and ask the manager as they may be able to help you. Do not attempt to mix yourselves.*

What time should we load in, and where?

Load in through the front door any time after 6pm. If you wish to do a sound check, this must be completed by 7.30pm. Any time after this will not be permitted. As there is little storage space, gear sharing is encouraged. This also allows for extra change over time.

What time does the first band start?

The first band starts at 9.15 and plays until 10.00.

Changeover from 10.00 until 10.15.

Second band from 10.15 until 11.00.

Changeover from 11.00 until 11.15.

Last band from 11.15 until 12.00.

We have a sound curfew that comes in at 12.00, please be courteous to the other bands and be on time.

Can we use a smoke machine?

Hell no!!

Do we need to bring a door person?

No. The venue will supply a door person.

Who do we see about payment?

See the manager on duty about collecting your money. Please be advised that money will not be paid until all equipment has been returned and counted. Management reserves the right to hold all money until equipment is returned. If equipment goes missing, the cost of replacing it will be subtracted from payment.

*If bands have to leave early, monies can be collected up to two weeks after show date. **After this money will be forfeited to the bar.***
